

Patient Information

How do I provide feedback?

You have been asked to provide feedback and have an opportunity to read some guidance on completing the survey.

You can then provide feedback in two ways;

1. Complete a **paper feedback** survey and follow the instructions set by the person facilitating the process
2. Provide feedback **online** using the unique code at the top of the form.

Further Information

Orbit360 compiles patient feedback into a report that the doctor will use to meet the requirements of revalidation.

The system was developed by the Revalidation Support Unit (RSU) & Digital team within Health Education and Improvement Wales (HEIW).

BE HONEST - your feedback is useful if it is honest. Tell your doctor what they do well and what you would like them to do differently.

GIVE EXAMPLES - make specific free text comments. Remember this is feedback for the doctor and the appointment
